701-200BS/IR	Bayonet Irrigating	1.0mm	Smooth	200mm

# Non-Stick Reusable Bi Polar Forceps

**Micro Jewellers**  
701 - 115S / NS

**Adson**  
701 - 150BIA / NS

**Cushing Straight**  
701 - 150BI / NS

**Jansen Bayonet**  
701 - 200BS / NS

## Non-Stick Bipolar Forceps

- Significant reduction of tissue adhesion to tips
- Reduced tissue trauma
- Highly conductive tip greatly reduces heat

Our **Non-Stick** range of bipolar forceps offers significant advantages over standard forceps when used in coagulation procedures. The adhesion of “coagulated” tissue to the tips is substantially reduced due to the heat dispersion properties of the unique metal alloy tipped forceps; this alloy is the best heat conducting material available and the only material which is bio-compatible.

Code	Description	Tip Size	Tip Style	Length
701-115S/NS	Micro Jewellers	0.5mm	Smooth	115mm
701-150BIA/NS	Adson	1.0mm	Smooth	120mm
701-150BI/NS	Cushing Straight	1.0mm	Smooth	150mm
701-200BS/NS	Jansen Bayonet	1.0mm	Smooth	200mm

# Bi Polar Cables

## Reusable

### V-16

- Round instrument plug
- 3 metres
- Silicone construction
- To suit twin pin forceps

## Reusable

### SW46200A

- Angled instrument plug
- 3 metres
- Silicone construction
- To suit twin pin forceps

## Single use

### SW46211

- Angled instrument plug
- 3 metres
- To suit twin pin forceps
- Individually packed in Steri-peel pouches. (box of 100)

# Standard Reusable Mono Polar Forceps

**Adson**  
700 - 140AP

**Potts-Smith**  
700 - 150ST

**Potts-Smith**  
700 - 175ST

**Potts-Smith**  
700 - 200ST

**Bayonet Straight**  
700 - 200BS

**Bayonet Angled**  
700 - 200BA

**Note:**

- Available Terminals  
 - 5/32 screw  
 - 2.4mm Female pin  
 - 4mm Banana plug

Code	Description	Tip Size	Tip Style	Length

# Reusable Adaptors

## Machine Active Plug Adaptor

To suit all 4 mm banana plugs.

900-01-LJA

## Machine Active Plug Adaptor

To take hand-switching pens to foot-switching

900-01-HS/FS

## Bi-Polar Machine Adaptors

To suit CONMED Generators

ALI-BPA-32

To suit ERBE Generators

ALI-BPA-22

# Screw Based Quivers

## SQUIVER™

### Screw off base enables easy cleaning

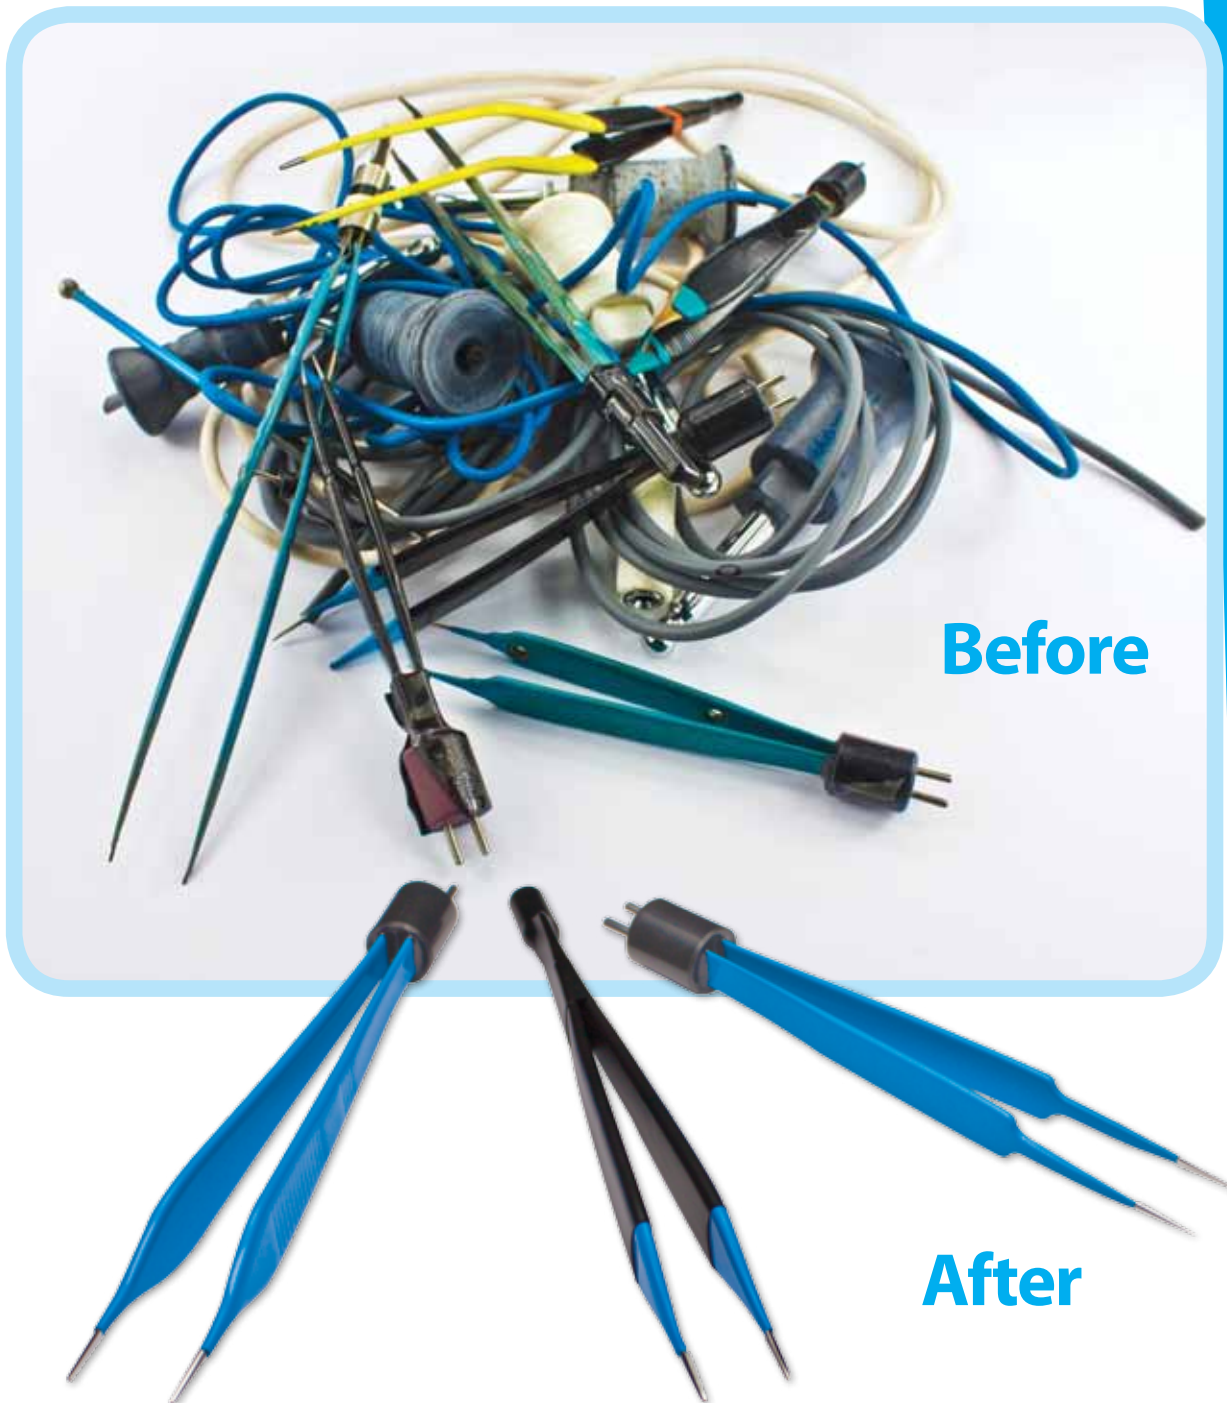

- Autoclaveable - standard steam
- Belled top for easy entry
- Screw base will not fall or drop off whilst in use
- Custom made for telescopes or extra long laparoscopic probes
- Spare caps and stainless steel rings are available

### Sizes available:

Code	Dimensions
DQS1.5	150mm
DQS2	200mm
DQS2.5	250mm
DQS3	300mm
DQS3.5	350mm
DQS4	400mm

# Repair and Reinsulation Service

**Before**

**After**

## It's the environmentally responsible choice.

Alimtype specialises in the repair, reinsulation and complete refurbishment of all types and brands of electro-surgical instruments.

We can restore your old, worn and damaged instruments to as new condition using only the highest quality materials and techniques, adhering to the most stringent standards.

Call us today.

**Alimtype, an Australian owned company has been at the forefront of design, manufacture and servicing of surgical instrumentation for over 25 years.**

## Manufacturing / Surgical Supplies

Alimtype manufactures and supplies a wide range of general and specialised instruments including:

- General theatre instruments
- ENT instruments
- Orthopaedic instruments
- Special technique needles, cass waldie etc
- Biopsy needles
- Custom made instruments
- Modifications and prototyping

## Repairs / Servicing

Alimtype offers a complete repair and maintenance service which includes:

- Sharpening - scissors, osteotomes, rongeurs
- Reblocking needle holders
- Reinsulation of diathermy instruments
- General repairs and maintenance of all instruments
- Super fast turn around time
